Reasons of Reduction in Graduation Rate: 2021-2022	The academic year 2021-2022 is the evolution era in Afghanistan which put a significantly adverse impact on our students (MBA and Bachelor) graduation rate For instance some of our students have migrated overseas and a number have left the university due to unfavorable economic conditions in the country. Afghanistan have experienced huge brain drain in its history in the mentioned year. Therefore, this is a fact which led in a reduction of graduation rate this year comparatively to the previous one.
